

CURICULUM VITAE**PERSONAL INFORMATION**

Name: Mats Olvmo
 Academic title: Associate professor
 Personal ensurance number: 56 09 26 - 3131
 Adress & tel: Dept. of Earth Sciences, University of Gothenburg, PO Box 460, 405 30 Göteborg. Tel. 031-7731963, email: matsol@gvc.gu.se
 Home adress: Sunnerviksgatan 30 S-41872 Göteborg, Sweden

Academic career

PhD examina November 1989 at the Department of Physical Geography, University of Gothenburg.
 Title of thesis: Meltwater canyons in Sweden A study of canyons of the "kursu"-, "skura"- and "grav"-type.
 Associate professor June 2002 at the Department of Earth Sciences, University of Gothenburg

Current position

Lecturer at the Department of Earth Sciences University of Gothenburg.

Earlier positions at the Departments of Physical Geography and Earth Sciences (from 1995), Göteborg University

83 07 01 - 88 06 30	faculty research funding	70% of full time, at the Department of Physical
82 01 01 - 82 06 30	teaching assistant	50
83 07 01 - 85 06 30	teaching assistant	25
85 07 01 - 88 06 30	teaching assistant	30
88 07 01 - 89 02 15	faculty research funding	100
89 02 16 - 89 09 30	lecturer	50
89 10 01 - 90 12 31	senior lecturer	50
91 01 01 - 94 12 31	research assistant	100
93 01 01 -	senior lecturer	100

Administrative functions

Director of studies at the Department of Earth Sciences 97-01-01 - 00-06-30

Head of Physical Geography Division at Department of Earth Sciences 2003-06-01-2005-06-30

Program coordinator – Bachelor program and Master program in geography 2007-0701-2009-06-30

Program coordinator – Bachelor program and Master program in geography 2011-03-01-2017-06-30

Research funding (grants larger than 50000 SEK)

1992-94 NFR-funding for the project "Deglaciation och senglacial utveckling i Skäftesfallområdet"	52,000 SEK
1993-95 NFR- funding for the project "Djupvittring och paleoytor i sydöstra Sverige"	76,000
1995-97 NFR- funding for the project Palaeosurfaces and deep weathering in Sweden (Karna Lidmar-Bergström main applicant)	240,876
1998-00 NFR- funding for the project Palaeorelief, saprolites and uplift/denudation of cratons (Karna Lidmar-Bergström main applicant)	719,504
2000-03 VR-funding, continued project Palaeorelief, saprolites and uplift/denudation of cratons (Karna Lidmar-Bergström main applicant)	553,225
2007 Swedish National Space Board: Periglacial landforms on Mars: Classification, distribution and implications for subsurface ice and climate change	412,000
2008 Swedish National Space Board: Periglacial landforms on Mars: Classification, distribution and implications for subsurface ice and climate change	457,000

Supervision of PhD students

Johan Kling – Sorted circles and polygons in northern Sweden. (shared supervision). PhD 1997-01-15

Magnus Johansson – The role of tectonics, structures and etch processes for the present relief in glaciated Precambrian basement rocks of SW Sweden. (shared supervision). PhD 2000-06-04.

Johan Bonow - Palaeosurfaces and palaeovalleys on North Atlantic previously glaciated passive margins. (shared supervision) PhD May 2004.

Kerstin Ericson – Landform development in granitic terrain. PhD October 2004.

Andreas Johnsson – Periglacial landforms on Mars. Dissertation 2012-10-05.

Staffan Rosell – Sustainable landuse in Wollo Province, Ethiopia (supervisor). 2013-10-04

Gustaf Peterson Becher -Sedimentology and Geomorphology of Glacial Landforms in Southern Sweden:
Studying the landscape of a melting ice sheet (shared supervision) PhD defense 2021-03-24

Other relevant activities

Participation in examination boards and faculty opponent duties etc.

1997 - Eva Lena Tullborg: *Recognition of low-temperature processes in the Fennoscandian Shield*. PhD thesis (member examination board)

1997 – Charlotte Cederbom: *Fission track thermochronology applied to phanerozoic thermotectonic events in central and southern Sweden* FL thesis (opponent)

1999 – Krister Jansson: *The glacial geomorphology of North-Central Quebec-Labrador, Canada*. Licentiate thesis (shared opposition)

2002 - Hanna Lokrantz: *Pleistocene stratigraphy, ice sheet history and environmental development in the southern Kara Sea, Arctic Russia* (PhD thesis (member examination board)

2002 – Krister Jansson: *Glacial geomorphology of North -Central Quebec-Labrador, Canada*. PhD thesis (member examination board).

2005 – Karin Ebert: *Large scale geomorphology and long-term landscape development of northern Fennoscandia*, Licentiate thesis (opponent)

2009 - Karin Ebert: Cenozoic landscape evolution in northern Sweden. PhD thesis. (member examination board).

2016 – Andrea Seim: Spatiotemporal climate and atmospheric circulation variability in Asia inferred from tree rings (member examination bord.

Membership in other boards

Member of an expert group evaluating the quality of higher education in geosciences in Sweden by direction of the National Agency for Higher Education, 2003 finished spring 2004.

Member of "Svenska geologiska namnkommittén" 2019-2021

Member Nationella kommittén för UNESCOS Internationella Geovetenskaps-och Geoparksprogram (IGGP) 2021-

Bibliometrics and publication profile

The publication list includes different fields within geomorphology including periglacial and glacial geomorphology, weathering, structural geomorphology and bedrock geomorphology of glaciated shields as well as Martian geomorphology and earth analogues (mostly Svalbard) as well as research with a more broad geographical approach which addresses livelihood problems in the Ethiopian highlands.

Google Scholar h-index 15, i10-index 17 Since 2016 h-index 11, i10-index 12
