TEACHING

My teaching focuses on lecturing as well as supervising theses and exercises on the themes: sustainable mobility and accessibility, social sustainability, Social Impact Assessment (SIA), everyday life and gender in a planning context. I also teach GIS (lecturing, examination). I am currently course coordinator of the courses “Planning methods for social sustainability”, “Including and excluding geographies”, and “Sustainable urban development” (shared coordination). During 2023 I co-developed and taught within the national course “Social Impact Assessment (SIA) for transport planning professionals”.
